

Reconstructing Middle America

J.D. Keppie, D.J. Morán-Zenteno and L.A. Solari

duncan@servidor.unam.mx

This symposium will be a forum for presentation of geological (stratigraphy, paleontology, structure, igneous and metamorphic petrology, tectonics, etc.) and geophysical (paleomagnetic, gravity, magnetic, heat-flow, seismic, etc.) data bearing on reconstructions of Middle America from Precambrian to the Present.
