## Reunión Anual 2008

Sesión especial:

**Fenómenos físicos asociados a la actividad tectónica**

Organizador:

**Anatoly Kotsarenko**

[kotsarenko@geociencias.unam.mx](mailto:kotsarenko@geociencias.unam.mx)

Moderadores:

**Ramón Zúñiga, Román Pérez Enríquez**

The scope of this section covers the latest experimental and theoretical results on the seismo- and volcano-related phenomena taking place in the lithosphere, atmosphere and ionosphere with major impact on the EM (electromagnetic) phenomena.

ALL RELATED PHENOMENA including seismic, geochemical, biological and others are also ACCEPTABLE.
